

# Suggested Course Sequence for Webster University Psychology (BA) Emphasis in Mental Health 4-year Plan (2020-2021 Catalog)

The 4-year plan that appears below is a guide to aid students in course selection. Individual preferences will allow students to deviate from this plan. For example, psychology majors can easily complete one of Webster's programs if the student plans appropriately. Studying abroad is recommended to be done during your sophomore or fall semester of your junior year in order to complete all graduation requirements within 4 years.
